Work Experience

Bajaj Finserv – Product Designer

Sep 2022 – Present, Pune, India

- Responsible for the designing user journey for Insurance Marketplace (Health Insurance, Motor Insurance and Pocket Insurance) for both app & web.
- Enhanced user experience by streamlining the funnel, aligning user goals with business objectives and requirements.
- Creating campaign creatives, RCS banners & emailers for multiple customer personas.
- Creating and iterating Insurance Portal, an internal tool for employees to refer a lead and to have all customer related information.
- First to create animated icons for Insurance products.
- Key highlights
 - Reduced insurance product purchase journey to a 3 clicks from an 8 click journey.
 - Designing Bajaj Finserv Insurance portal for all internal work
 - Reduced user drop-off rates by adding nudges and clearer CTAs.

Adaptiv – UX/UI Designer

November 2020 – August 2022, Remote, France

- Designed and launched MVP for early user testing and market fit validation
- Designed Android, iOS app and landing pages for Adaptiv, collaborating closely with founders and front-end developers.
- Led user testing for MVP, achieving 78% user satisfaction with the product's usability and design.

BeautySelf – Frontend Developer & Design Intern

July 2020 – September 2020, Chemnitz, Germany

- Responsible for coding in HTML & CSS
- Designed SKU pages and hero banners for homepage.
